

## Mt Waterman

### Directions:

Take the 605 Fwy North, or the 57 Fwy North, to the 210 FWY West thru Pasadena to La Canada Flintridge and exit at Angeles Crest Hwy (Hwy 2). Take Angeles Crest Hwy North past Chilao Flats to the Mt Waterman ski lift (approx. 33 miles from the freeway). Go another half mile and just before and just before Buckhorn Flats Campground you will spot a gate on the left and then a yellow pipe gate on the right which will be Forest Service road 3N03. Park on highway sholder, not in front of the gate. A **Forest Service Adventures Pass** must be displayed. Use the **Waterman Mountain Topo** for this hike.

The trailhead sign (not visible from the road) indicates Mt Waterman Loop. It leads to the left from the fire road, paralleling the highway a short distance then ascending the forested slope. After climbing through forest for 1.25 miles the trail reaches a saddle on Waterman's East ridge. Here you look down into the wild upper reaches of Bear Canyon and on to Twin Peaks. The trail continues West about a half mile to a junction with the Twin Peaks Trail. Go right and continue up the summit plateau to a new little side trail to the left that goes all the way to the summit a few hundred yards to the SW.

Total round trip distance is about 6.5 miles with a 1200 foot elevation gain. The peak is just over 8000 feet. There are restrooms and water at Buckhorn Flats Campground.

This hike meets the requirements for the following High Adventure Awards:

Cub Day Hiker  
 Webelos Hiker  
 Cub Ranger  
 Webelos Under the Stars

## EASY to MODERATE
